ORDER:

In the reference 1st read above, "Indiramma Amrutha Hastham" (IAH) for spot feeding of one full meal for Pregnant & Lactating women at Anganwadi Centres (AWCs) was introduced from 1st January, 2013 in 102 ICDS Projects which had the most adverse health and nutrition indicators in the State.

2. In the reference 2nd read above, guidelines were issued for implementation of "IAH" programme for Pregnant and Lactating women in the 102 high-risk ICDS Projects.

3. In the reference 8th read above, the "IAH" programme was extended to another 63 ICDS Projects under 2nd Phase of expansion for covering more than 40% of Pregnant & Lactating women in the State.

4. In the reference 9th read above, permission was accorded for implementation of IAH programme in 17 bifurcated ICDS Projects, with IAH thus covering a total of 182 ICDS Projects.

5. In the reference 4th read above, the new food models for Supplementary Nutrition Programme (SNP) were issued as per the revised cost norms of Government of India (GOI) under ICDS restructuring for the 11 Districts selected for ICDS restructuring and with old cost norms for the remaining 12 Districts for 2013-14.

6. In the reference 7th read above, the Commissioner, WD&CW, Hyderabad was accorded permission to implement the new food models of 11 Districts in all 23 Districts with revised cost norms from November 2013 onwards itself in order to have uniformity in implementation of SNP in all Districts in the State.

7. Further vide reference 4th read above, orders were issued to provide milk powder to Severely Underweight (SUW) children in addition to the regular SNP for children aged 7 months – 6 years to meet the additional nutritional requirement.

(Contd....)

8. In the letter 10th read above, the Commissioner, WD&CW, Hyderabad has informed that A.P. Dairy Development Co-operative Federation Limited (APDDCF), Hyderabad is unable to supply milk powder to various ICDS Projects due to fall in production of milk powder. Further, as the quantity required per ICDS Project is low, APDDCF has expressed difficulty in supplying such small quantities. It is also informed that milk alone was not adequate to meet the caloric gap for the SUW children as prescribed by GOI norms.

9. Further the Commissioner, WD&CW, Hyderabad has informed that there are about 1 lakh SUW children under 6 years and that there is a need to adopt revised food model for additional supplementation with supervised feeding in the AWC to address the nutritional requirements as per GOI norms and concerns of such children. Therefore, the Commissioner has proposed a revised food model for additional supplementation for supervised feeding at the AWC of the SUW children from 7 months to 6 years of age and requested the Govt. to issue orders for implementation of the same.

10. After careful consideration of the matter and in order to tackle malnutrition in the State, the Government hereby accords permission to Commissioner, WD&CW, Hyderabad to revise the food model for additional supplementation for supervised feeding of children categorized under Severely Underweight (SUW) and also Severe Acute Malnutrition (SAM) / Moderate Acute Malnutrition (MAM) for both the age groups of 7 months – 3 years and 3 - 6 years in the AWC as indicated in the Annexure-I appended to this G.O. The cost for this additional supplementation will be met from the ICDS budget for SNP for SUW children as well as the Sneha Shivirs, the ICDS flexi funds and overall saving of SNP.

11. For the sake of comprehensiveness, the food models to be followed uniformly for all categories of beneficiaries in all Districts in the State are also indicated in the Annexure-I appended to this G.O. In order to meet the daily calorie / protein / RDA requirement of the beneficiaries as per GOI norms without any gaps, any variation in the tentative costs (indicated in the Annexure-I) will be absorbed in the overall price variations / fluctuations and saving of SNP.

12. In order to enhance transparency, the food models and menus for the various categories of beneficiaries will be displayed in all AWCs without fail. Further as per reference 3rd read above, permission has been accorded to constitute the Anganwadi Level Monitoring and Support Committee (ALMSC) on ICDS. The PDs (ICDS) will ensure constitution of the Committee for each AWC in all ICDS Projects. The AWW will convene the meeting of the Committee at least once in a month and will record the minutes. As part of its responsibilities, the Committee will (a) help to mobilize the pregnant and lactating women, mothers of children under 6 years and adolescent girls to avail all services of ICDS particularly SNP (b) monitor the implementation of the various aspects of ICDS particularly the SNP such as attendance of beneficiaries, quality and quantity of food of THR and feeding at AWC, maintenance of hygiene standards etc. (c) help to avoid gaps in SNP and encourage community to contribute and support the SNP efforts and (d) prepare a health and nutrition plan and make efforts to improve the nutritional status of women and children in the AWC area.

13. In order to implement SNP without gaps and to monitor the processes and outcomes of ICDS scheme, Monthly Progress Reports (MPRs) 1 to 10 are prescribed which shall be submitted online by the PDs (ICDS), CDPOs and Supervisors. The formats of MPRs 1 to 8 clearly indicating who has to submit the MPR and by which date are enclosed at Annexure-II appended to this G.O. As such, MPR-6 will replace the existing Tour Dairy. MPR- 9 (a) is the Anganwadi Monthly Progress Report (AMPR), MPR-9 (b) is the Anganwadi Annual Status Report (AASR), MPR-10(a) is the Project Monthly Progress Report (PMPR) and MPR-10(b) is the Project Annual Status Report (PASR) as prescribed by GOI for revised MIS for ICDS.

(Contd...)

::3::

14. The Commissioner, WD&CW will take necessary action accordingly to implement the food models and to monitor SNP and ICDS scheme using the online MPRs.
